Weather permitting, Monday, July 29, 2013, A-Tech Paving under contract with the City of Norman will begin the complete reconstruction of the existing pavement on Flood Avenue between Gray Street and Main Street. This project will require Flood Avenue to be reduced to one lane of traffic each direction for the duration of the project. Signage will be placed to direct the traveling public but delays should be expected. The construction will be completed by Tuesday, August 20, 2013. For additional information about this project, please contact the City of Norman Street Division at 329-2524.
